

2007 Product Line

Parasound Zcustom is our distinctive line of ultra-compact components with unique features to solve many of your custom installation problems. They provide true high-end performance where space is tight.

With all-discrete IR codes and well-conceived RS-232 protocols and modules, Parasound Zcustom integrates perfectly with popular control systems such as Crestron, Niles, AMX, Control 4, Russound and Netstreams.

PARASOUND

Zamp v.3

Two Channel Amplifier

“The smoothness and naturalness of the Zamp’s midrange was exceptional: clean, sweet, realistic, and musical.”

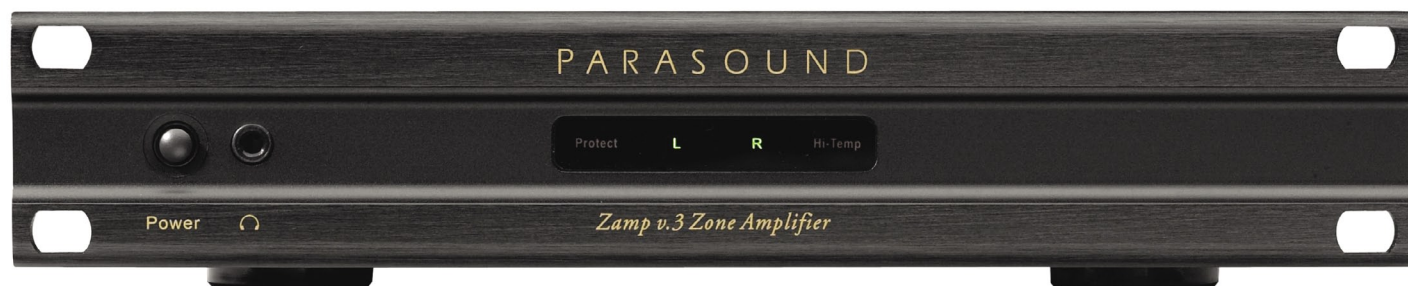

“If you’re in the market for an inexpensive amplifier, run—do not walk—to check out the Parasound amp. It’s a fabulous value for the money.”

—audioXpress

“...the Parasound Zamp v.3 is one helluva 45-watt amplifier, regardless of price tag and chassis size.”

—The Audio Critic

The Zamp v.3 is a class AB amplifier with stellar reliability, amazing sound quality, and plenty of power, all in a small package. Whether you use it as a zone amplifier or the centerpiece of a mini-component system, this feature-packed power amplifier will surpass your expectations.

Zamp v.3 Features and Specifications

- 45 watts x 2 into 8 ohms
- 60 watts x 2 into 4 ohms
- 90 watts x 1 into 8 ohms
- Automatic on/off by 12v trigger and audio signal
- Trigger in & out jacks, adjustable audio sensitivity
- Selecting auto turn-on overrides power button
- Level controls for each channel; ground lift switch
- Discrete class AB circuit, toroid power transformer
- Gold-plated RCA input jacks & loop output jacks
- 5-way gold-plated speaker terminals
- Indicators for standby and operating status
- Plugging in headphones mutes speakers

Ztuner v.2 FM/AM Tuner

Zcustom models are half-rack size:

- Width: 9-1/2"
- Height: 1-3/4"; 2" with feet
- Depth: 10"

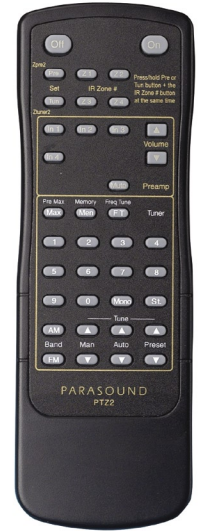

Two Zcustom models mount in a single rack space with a Parasound SBS coupler. One Zcustom model mounts in a single rack space with a Parasound Zblank panel extender.

SBS coupler

- 2 units mount in 1 rack space using 1 SBS panel coupler (sold separately).
- 1 unit mounts in 1 rack space using 1 Zblank empty panel (sold separately; Zblank includes SBS).

The Ztuner v.2 remote has discrete IR codes. It also controls the Zpre2.

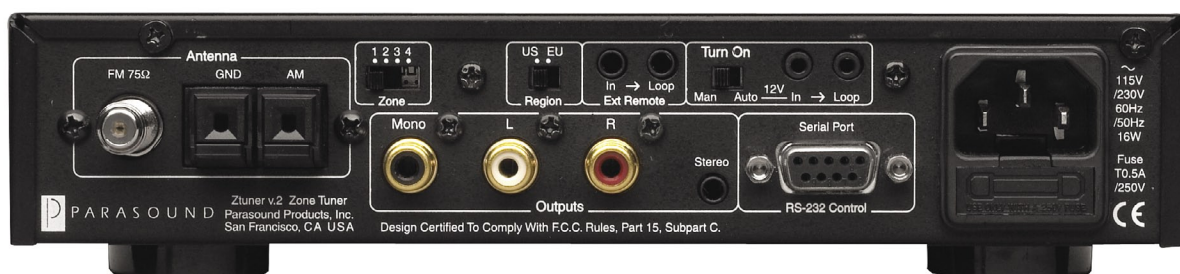

The Ztuner v.2 receives even remote radio stations clean and clear, without taking up much space. A single remote is all you need to control up to four Ztuners in a single installation. The Ztuner is the perfect choice if you want to create a mini system that is simply spectacular.

Awarded "Best of 2006" by *Electronic House Magazine*

Ztuner v.2 Features and Specifications

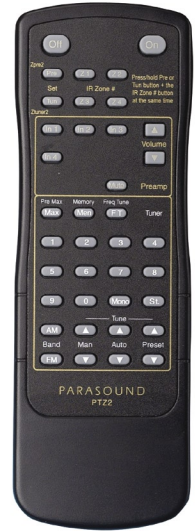

- FM Stereo sensitivity: IHF 36.9 dBf, 50 dB quieting
- Capture ratio: 1.5 dB
- FM stereo separation: 50 dB
- Automatic, manual, and preset tuning
- Two-way RS-232 control
- Direct station frequency tuning via remote & RS-232
- 30 station presets, switchable to 8 for quicker scrolling
- 3 line out jacks, simultaneous stereo & mono output
- Auto turn-on by 12v trigger; input & loop out jacks
- Selecting auto turn-on overrides power button
- Remote control with discrete IR codes
- External remote input and loop out jacks
- Remote handset assignable up to 4 different zones

Zpre2

Two Channel A/V Preamplifier

The Zpre2 is designed for a wide variety of applications, including multi-room, multi-zone installations, desktop audio, PC-Mac audio, bedroom or den systems. The versatility of the Zpre2 allows many connection and configuration options and a single remote is all you need to control up to four Zpre2s in a single installation.

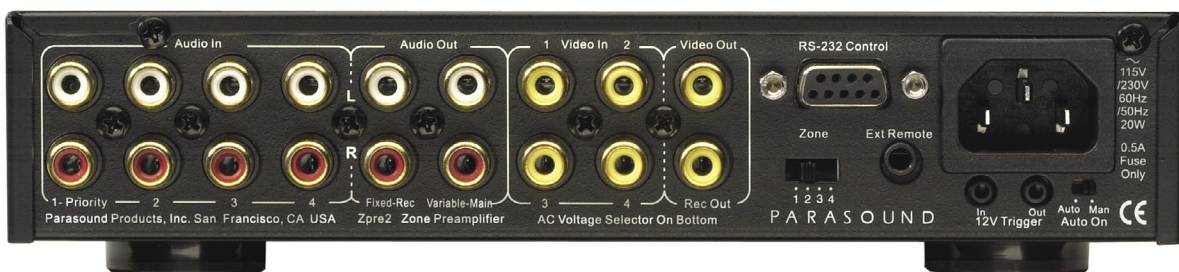

The Zpre2 remote has discrete IR codes. It also controls the Ztuner v.2.

Zpre2 Features and Specifications

- Frequency Response: 10 Hz – 100 kHz, +0/-3 dB
- Total Harmonic Distortion: 0.006%
- S/N Ratio: 112 dB, input shorted, IHF A-weighted
- Two-way RS-232 control
- Selects 4 audio & 4 composite video sources
- Input I includes auto select priority override
- Remote control includes discrete codes for Off and On
- External remote input jack
- Auto or manual turn-on, auto overrides power button
- 12v trigger turn on/off, input and output jacks
- 12v output to trigger other components
- Record outputs for video and fixed level audio
- Plugging in headphones automatically mutes main out
- Remote handset assignable up to 4 different zones

5 Input HDMI® Switcher

Selects up to five HDMI video sources and routes them to one HDMI output. Its HDMI boost circuit assures flawless performance with extra-long HDMI wire runs. The Zhd switches inputs automatically when it connects to a Parasound C 1, C 2, 7100 surround controller or a P 7 preamplifier.

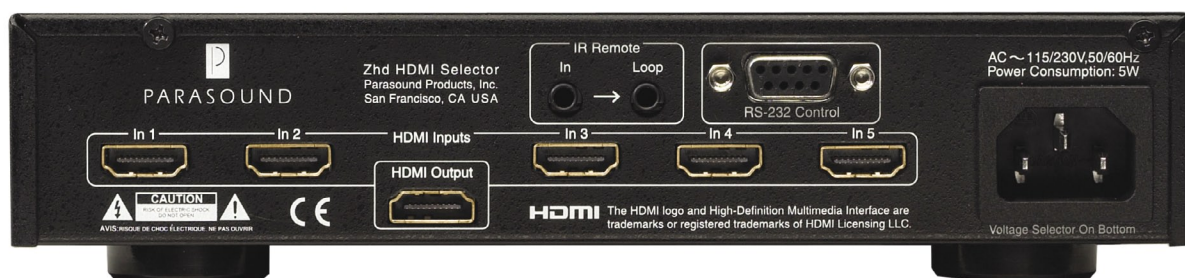

The Zhd remote has discrete IR codes.

Zhd Features and Specifications

- Certified for HDMI 1.1 & 1.2 ; fully HDCP-compliant
- 5 inputs, 1 output HDMI video and audio switcher
- Supports video resolutions up to 1080p
- Switchable HDMI booster for extra-long HDMI cable runs
- IR remote control handset included; discrete IR codes
- HDMI output temporary 'mute' function
- Two-way RS-232C, unsolicited automatic feedback
- External IR repeater input and loop out jacks

Zphono

Phono Preamplifier

“...an impressive showing...”

“...the most impressive aspect of the Z-Series’ sound was what wasn’t there: grain, sizzle, edge, and grit.”

–Stereophile

This elegantly simple and affordable component allows your turntable to be used with any preamplifier or receiver, with sound quality that does full justice to your record collection. Long live vinyl!

Zphono Features and Specifications

- Gain at 1 kHz: MM, 46dB; MC, 61 dB
- Input sensitivity / impedance:
 - MM: 5 mV / 47 k ohms
 - MC: 0.9 mV / 100 ohms
- RIAA accuracy:
 - 0.25 dB, 20 Hz – 20 kHz
 - S/N ratio:
 - MM, 84 dB
 - MC, 58 dB
- Works with all line drive preamplifiers
- Switchable gain for moving magnet or moving coil cartridges
- Exclusive AC polarity switch to eliminate hum
- Ultra high-speed, low-noise opamps
- Audiophile-grade resistors and capacitors

Zbreeze

Local Area Cooling Fan

The Zbreeze prolongs the life of your components by preventing “hot spots” where air stagnates and climbs to destructive temperatures around the hottest-running units. It moves air in virtual silence with three premium ball-bearing fans selected for their quiet operation and longevity.

Zbreeze Features and Specifications

- Three large fans with ball-bearing construction for long life
- 3 turn-on modes, manual, auto-12 Volt trigger; auto-AC
- Selecting auto turn-on mode overrides power button
- 2 turn-off modes, instant turn-off or 10 minute delay

- Three fan speeds: 25 CFM, 50 CFM, 75 CFM

For more Zbreeze information and its owner's manual, please visit www.parasound.com.

Zselect

Five-Pair Speaker Selector

Zselect switches up to 5 pairs of speakers while maintaining a safe load impedance for your amp or receiver. When used with a Parasound power amplifier, it's a practical way to distribute sound around your home or business.

Zselect Features and Specifications

- Amplifier protection: up to 250 watts per channel
- 10 ampere capacity input & output connectors

For more Zselect information and its owner's manual, please visit www.parasound.com.
